# TRANSFER SYMPOSIUM

## Retaining Our University Transfer Students

Budget cuts have impacted many institutions, resulting in a loss of personnel and programs. However, services for students must still be maintained. The Transfer Symposium is designed to begin a dialogue among faculty and student support services staff to examine the college's University Transfer structure and devise a pragmatic approach to strengthening it so that a higher number of transfer students are retained and graduate as well as transfer to a four-year institution.

**GUEST SPEAKER  
TENITA PHILYAW-  
ROGERS**
